### PAGE 2: Proposed Organ and Tissue Donation (Scotland) Bill Consultation

**Q1: The overarching purpose of my proposal is to move from the current opt-in system to a soft opt-out system of organ donation. Do you support this move? Please indicate "yes/no/undecided" and explain the reasons for your response.**

No,

Please give your reasons for your response:  
The state does not own my body! I do.

**Q2: How essential is it to change the law (from an opt-in to a soft opt-out system) in order to achieve the intended benefits (increased transplant rates, reduced waiting lists)? Are there other (non-legislative) measures that could achieve similar outcomes without the need for legislation?**

Better advertising. There is no need for legislation. You do not have the mandate to do this.

**Q3: I believe the role of the family should be limited to being consulted on whether they are aware of any (unregistered) objection by the deceased rather than asking for their consent. Do you agree? Please indicate "yes/no/undecided" and explain the reasons for your response.**

No,

Please give reasons for your response:  
The state is overstepping it's authority to lay claim to a dead persons body without familial consent.

**Q4: Do you think an individual should be able to appoint a proxy to the make the final decision regarding transplantation on their behalf? Please indicate "yes/no/undecided" and explain the reasons for your response.**

Undecided,

Please give reasons for your response:  
Only if the proxy has written authority

**Q5: My proposal is that only adults should be automatically opted-in to be a donor. Younger persons would have to register to be a donor, by themselves or with parental consent as they currently do. This approach is I believe the best way to safeguard children and young people. Do you agree? Please indicate "yes/no/undecided" and explain the reasons for your response.**

No,

Please give reasons for your response:  
YU have no authority to assume an opt in for anyone no matter their age or status!

**Q6: Do you agree the age limit for an adult should be set at 16 years old? Please indicate "yes/no/undecided" and explain the reasons for your response.**

No,

If you answered no, what would you consider a more appropriate age?  
Absolutely not. They are young people up until age 25 according to the EU. You only introduced 'adult' status for 16-18 year olds as a referendum ploy. If you had extended this to cover all elections this may have swayed me.

## Proposed Organ and Tissue Donation (Scotland) Bill

**Q7: Do you agree the soft opt-out system should apply to people who have been resident in Scotland for a minimum period of 1 year prior to their death? Please indicate "yes/no/undecided" and explain the reasons for your response.**

No,

Please give reasons for your response:  
Again you do not as the state have any right to assume anything without the consent of the individual or their family.

**Q8: If you answered no to the above how long, if any, should this period of residency last before they become subject to the soft opt-out system? Would this residency need to be for a continuous period?**

See above

**Q9: Do you think 6 months is a long enough period to run a campaign prior to change over?**

Don't be so impertinent. You do not have the authority to do this without the express mandate of the people following an election.

**Q10: What is your assessment of the likely financial implications (if any) of the proposed Bill to you or your organisation? What (if any) other significant financial implications are likely to arise?**

Irrelevant

**Q11: Is the proposed Bill likely to have any substantial positive or negative implications for equality? If it is likely to have a substantial negative implication, how might this be minimised or avoided?**

See all the above

**Q12: Do you have any other comments on or suggestions relevant to the proposal?**

Bin e idea.
