## PAGE 2: Proposed Organ and Tissue Donation (Scotland) Bill Consultation

**Q1: The overarching purpose of my proposal is to move from the current opt-in system to a soft opt-out system of organ donation. Do you support this move? Please indicate "yes/no/undecided" and explain the reasons for your response.**

Yes

**Q2: How essential is it to change the law (from an opt-in to a soft opt-out system) in order to achieve the intended benefits (increased transplant rates, reduced waiting lists)? Are there other (non-legislative) measures that could achieve similar outcomes without the need for legislation?**

already tried publicity campaigns but without significant increase in registered donors. surveys suggest a majority in Scotland want to be donors, so those that feel strongly enough should opt out, wouldn't they?

**Q3: I believe the role of the family should be limited to being consulted on whether they are aware of any (unregistered) objection by the deceased rather than asking for their consent. Do you agree? Please indicate "yes/no/undecided" and explain the reasons for your response.**

Yes,

Please give reasons for your response:  
I believe that if the person has not opted out, and the family are not aware of them disagreeing to donation, then transplant should go ahead. Publicity and opportunities will arise to do so, and if they feel strongly enough, they'll opt out!

**Q4: Do you think an individual should be able to appoint a proxy to make the final decision regarding transplantation on their behalf? Please indicate "yes/no/undecided" and explain the reasons for your response.**

No,

Please give reasons for your response:  
if they can make the decision, then surely it's made? Why would you need a proxy if they know your wishes?

**Q5: My proposal is that only adults should be automatically opted-in to be a donor. Younger persons would have to register to be a donor, by themselves or with parental consent as they currently do. This approach is I believe the best way to safeguard children and young people. Do you agree? Please indicate "yes/no/undecided" and explain the reasons for your response.**

Yes

<p><b>Q6: Do you agree the age limit for an adult should be set at 16 years old? Please indicate "yes/no/undecided" and explain the reasons for your response.</b></p>	Undecided
<p><b>Q7: Do you agree the soft opt-out system should apply to people who have been resident in Scotland for a minimum period of 1 year prior to their death? Please indicate "yes/no/undecided" and explain the reasons for your response.</b></p>	<p>Undecided, Please give reasons for your response: hard to say- how will we know how long someone has lived here?</p>
<p><b>Q8: If you answered no to the above how long, if any, should this period of residency last before they become subject to the soft opt-out system? Would this residency need to be for a continuous period?</b></p>	<p><i>Respondent skipped this question</i></p>
<p><b>Q9: Do you think 6 months is a long enough period to run a campaign prior to change over?</b> probably- is there any guidance on this from previous campaigns?</p>	
<p><b>Q10: What is your assessment of the likely financial implications (if any) of the proposed Bill to you or your organisation? What (if any) other significant financial implications are likely to arise?</b> overall reduced costs to the NHS? No brainer.</p>	
<p><b>Q11: Is the proposed Bill likely to have any substantial positive or negative implications for equality? If it is likely to have a substantial negative implication, how might this be minimised or avoided?</b> positive</p>	
<p><b>Q12: Do you have any other comments on or suggestions relevant to the proposal?</b> think this should have happened years ago. Good luck with your proposals.</p>
