## PAGE 2: Proposed Organ and Tissue Donation (Scotland) Bill Consultation

**Q1: The overarching purpose of my proposal is to move from the current opt-in system to a soft opt-out system of organ donation. Do you support this move? Please indicate "yes/no/undecided" and explain the reasons for your response.**

Yes,

Please give your reasons for your response:  
Because so many people never get around to signing donation forms before death.

**Q2: How essential is it to change the law (from an opt-in to a soft opt-out system) in order to achieve the intended benefits (increased transplant rates, reduced waiting lists)? Are there other (non-legislative) measures that could achieve similar outcomes without the need for legislation?**

*Respondent skipped this question*

**Q3: I believe the role of the family should be limited to being consulted on whether they are aware of any (unregistered) objection by the deceased rather than asking for their consent. Do you agree? Please indicate "yes/no/undecided" and explain the reasons for your response.**

Yes,

Please give reasons for your response:  
No one would be forced to donate organs against their wishes but it allows for a more common sense approach at a difficult and painful time.

**Q4: Do you think an individual should be able to appoint a proxy to make the final decision regarding transplantation on their behalf? Please indicate "yes/no/undecided" and explain the reasons for your response.**

Yes,

Please give reasons for your response:  
Yes if the individual is unable to make a decision for themselves

**Q5: My proposal is that only adults should be automatically opted-in to be a donor. Younger persons would have to register to be a donor, by themselves or with parental consent as they currently do. This approach is I believe the best way to safeguard children and young people. Do you agree? Please indicate "yes/no/undecided" and explain the reasons for your response.**

Undecided,

Please give reasons for your response:  
I put all four of my children on the donor register after their birth so it was done and hopefully I would never be in the position to be asked. My children then gave their own consent as teenagers...well 3 of them. The other one took a year of persuading to go on the donor register.

**Q6: Do you agree the age limit for an adult should be set at 16 years old? Please indicate "yes/no/undecided" and explain the reasons for your response.**

Yes,

If you answered no, what would you consider a more appropriate age?  
Young people have the right to give informed consent and they are able to marry and vote in a referendum.

**Q7: Do you agree the soft opt-out system should apply to people who have been resident in Scotland for a minimum period of 1 year prior to their death? Please indicate "yes/no/undecided" and explain the reasons for your response.**

Yes

**Q8: If you answered no to the above how long, if any, should this period of residency last before they become subject to the soft opt-out system? Would this residency need to be for a continuous period?**

*Respondent skipped this question*

**Q9: Do you think 6 months is a long enough period to run a campaign prior to change over?**

Yes

**Q10: What is your assessment of the likely financial implications (if any) of the proposed Bill to you or your organisation? What (if any) other significant financial implications are likely to arise?**

Not sure

**Q11: Is the proposed Bill likely to have any substantial positive or negative implications for equality? If it is likely to have a substantial negative implication, how might this be minimised or avoided?**

All citizens do not have equal access to services or advice. It will surely be important to adequately advertise this to all members of our society.

**Q12: Do you have any other comments on or suggestions relevant to the proposal?**

Good luck. Common sense will prevail and well done for being pro active!
