PAGE 2: Proposed Organ and Tissue Donation (Scotland) Bill Consultation

Q1: The overarching purpose of my proposal is to move from the current opt-in system to a soft opt-out system of organ donation. Do you support this move? Please indicate "yes/no/undecided" and explain the reasons for your response.

Yes,

Please give your reasons for your response:
It will provide the NHS with more donated organs to save lives.

Q2: How essential is it to change the law (from an opt-in to a soft opt-out system) in order to achieve the intended benefits (increased transplant rates, reduced waiting lists)? Are there other (non-legislative) measures that could achieve similar outcomes without the need for legislation?

The only non-legislative means would be more advertising campaigns about becoming a donor, but it would not have the same increase as legislation.

Q3: I believe the role of the family should be limited to being consulted on whether they are aware of any (unregistered) objection by the deceased rather than asking for their consent. Do you agree? Please indicate "yes/no/undecided" and explain the reasons for your response.

No,

Please give reasons for your response:
I think if the deceased had told family members their wishes, that should be respected.

Q4: Do you think an individual should be able to appoint a proxy to make the final decision regarding transplantation on their behalf? Please indicate "yes/no/undecided" and explain the reasons for your response.

Yes,

Please give reasons for your response:
But there must be proof that the proxy was appointed.

Q5: My proposal is that only adults should be automatically opted-in to be a donor. Younger persons would have to register to be a donor, by themselves or with parental consent as they currently do. This approach is I believe the best way to safeguard children and young people. Do you agree? Please indicate "yes/no/undecided" and explain the reasons for your response.

No,

Please give reasons for your response:
Children need organ donors too. Their parents can opt them out if they wish.

Q6: Do you agree the age limit for an adult should be set at 16 years old? Please indicate "yes/no/undecided" and explain the reasons for your response.

Yes

Q7: Do you agree the soft opt-out system should apply to people who have been resident in Scotland for a minimum period of 1 year prior to their death? Please indicate "yes/no/undecided" and explain the reasons for your response.

No

Proposed Organ and Tissue Donation (Scotland) Bill

Q8: If you answered no to the above how long, if any, should this period of residency last before they become subject to the soft opt-out system? Would this residency need to be for a continuous period?

2 years.

Q9: Do you think 6 months is a long enough period to run a campaign prior to change over?

Yes, if it's a good campaign.

Q10: What is your assessment of the likely financial implications (if any) of the proposed Bill to you or your organisation? What (if any) other significant financial implications are likely to arise?

The initial set up costs will be worth the lives saved.

Q11: Is the proposed Bill likely to have any substantial positive or negative implications for equality? If it is likely to have a substantial negative implication, how might this be minimised or avoided?

I am not sure. Maybe it would mean people from areas with worse health boards would get organs quicker.

Q12: Do you have any other comments on or suggestions relevant to the proposal?

PAGE 3: Contact Details

Q13: If you wish your response, or any part of it, to be treated as anonymous or confidential, please check the appropriate box and state the reason for this. If not, then please go to question 14. If I accept the reasons, I will publish it as "anonymous response" or only publish the non-confidential parts of the response. If I do not accept the reasons, I will let you know and give you the option of withdrawing it or submitting it on the normal attributable basis.
